Water User's Agreement

The undersigned does hereby make application to said district for water services and agrees to the following conditions:

Connection and meter fees for a new **5/8" Meter** are **\$1325** per meter. Meter sizes larger than 5/8" have higher connection and meter fees. Please contact the office if a larger meter will be required. If damage occurs to the meter due to owner's negligence such as; (freezing, breakage, mower damage, etc.) the owner will be responsible for the fees to replace or repair the damage.

A deposit, based on account type and usage, for each meter will be paid to the district as a security deposit. The final bill will include the existing amount due plus the final amount billed after the final read is taken. This total will be paid by applying the security deposit to the amount due. Any remaining security deposit left after the total final bill is subtracted from the deposit will be returned to you at the address on file at time of finalizing the account. If an amount is still due, a final bill with the amount owed will be mailed.

After water service is made available by the installation of a water meter, the minimum monthly charge plus the water registered as flowing through the meter will be charged as stated in the **Rate Schedule**. If service is discontinued or disconnected for any reason other than an emergency, service will only be reconnected after all prior balances, a reconnection fee of \$50.00 and the required meter security deposit is verified as having been made.

Payment for all water used, based on the meter readings and current **Rate Schedule**, will be due when the bill is sent and will become past due on the **21st** of the month after the meter reading was taken, at which **10% Late Fee** will be added to all accounts with an outstanding balance. Water will be disconnected during the first week of the following month if payment is not received. A **\$50 Reconnect Fee** plus any water charges must be paid before services will be restored.

The water service supplied by the district shall be for the sole use of the undersigned. The undersigned agrees that he/she will not extend or permit the extension of pipes for the purpose of transferring water from one property to another, nor will he/she share, resell or sub meter water to any other consumer without written consent of the district.

Backflow prevention devices must be installed and inspected annually for all meters connected to a commercial account or any residential account with an in-ground irrigation system, swimming pool or other usage considered as a threat to health.

Any unlawful tampering with PWSD#3 property, valves, meters or water lines will result in a **\$500.00** fine and possible permanent disconnection of water service.

The undersigned agrees that he/she will make no physical connection between any private water system and the water system of the district. Representatives of the district may at any reasonable time come on the premises where the water is being used for the purpose of making inspection to enforce this provision. Violation of this provision shall be grounds for disconnection of services. The undersigned further agrees to laws set forth by the state of Missouri and the by-laws and rules of this Water District at present, and as may be amended in the future and set forth as part of this agreement.
